SUMMARY

Full Stack Developer with 2 years of experience building end-to-end web applications using React.js and Spring Boot. Strong background in REST API development, database integration, and scalable frontend solutions.

WORK EXPERIENCE

Associate Software Engineer

Virtusa

Jan 2024 – Present

India

- Developing scalable full stack applications for HSBC using React.js and Spring Boot.
- Implementing RESTful APIs and integrating frontend with backend services.
- Ensuring code quality using unit testing and static code analysis tools.

Intern – Java Full Stack Developer

Virtusa

May 2023 – Aug 2023

India

- Built RESTful services and integrated frontend components.
- Improved application performance and maintainability.

PROJECTS

• Rent Hive – Full Stack PG Rental Management System

Developed a full-stack PG rental platform with room booking and payment integration. Implemented authentication, authorization, and role-based access control using Spring Boot, Hibernate, and MySQL.

• Event Management Portal

Designed and developed an event management portal with event registration and ticketing. Built REST APIs and integrated frontend-backend communication.

GitHub Repository
